Changes in the BetweenSessions.com Software

Instead of this . . .

You see this . . .

Log In Here

This is your new Home Screen.

Newsfeed gives you info on the site.

**Click here to hide the news feed.**

**New tools are added on this page every weekday.**

You can now edit and send tools without having to first add them to your Library. Clicking on this button will immediately open the tool to edit and/or send.
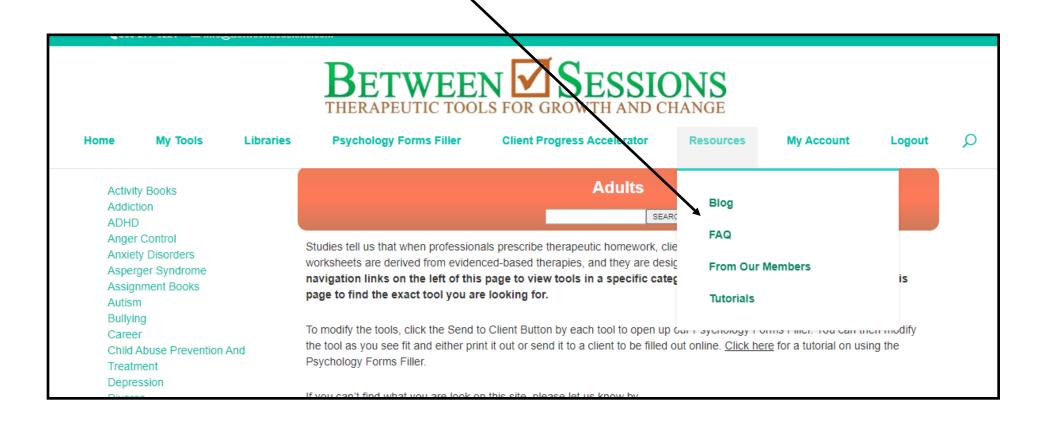

Your Library is now called "My Tools." Click the button to add a tool to your personal Library.

Click the Library you want to explore and you'll see the subcategories on the left navigation.

We recommend using the search box to find the exact tool you want.

From the Resources tab, find our blog, FAQ, tutorials, and resources from our members.
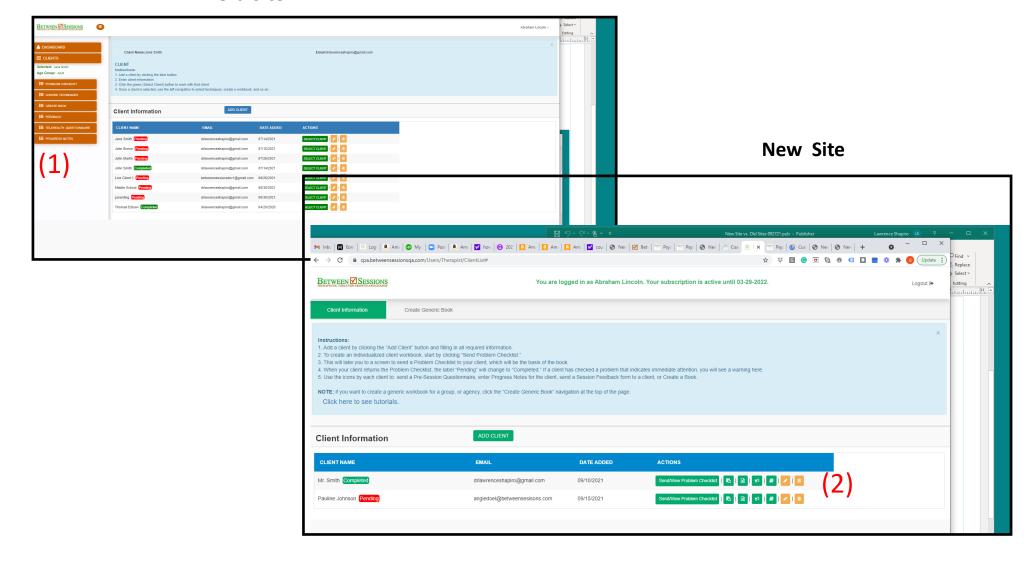

Most of our tutorials have videos <u>and</u> PDF documents you can review.
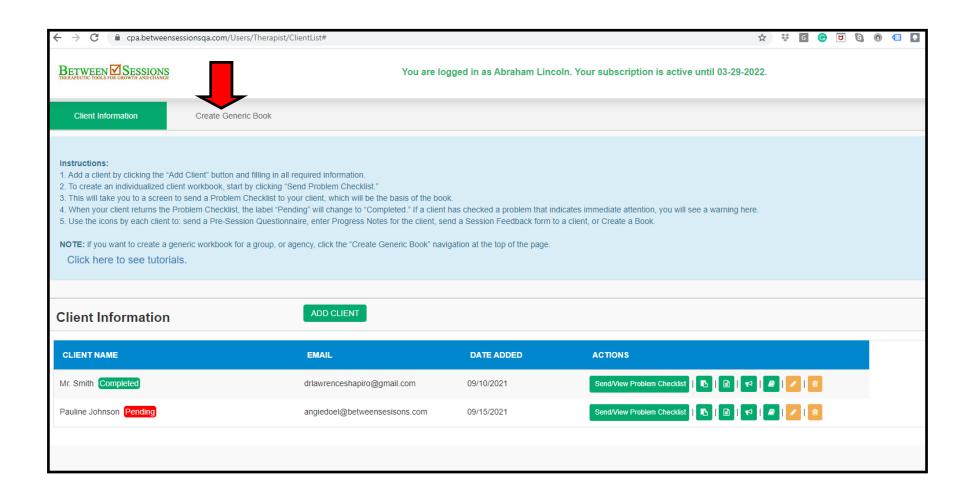

There are several changes to the Client Progress Accelerator (CPA). Instead of seeing the tool navigation on the left (1), you will now see icons by each client (2), which you will use to navigate to the various pages for each client.
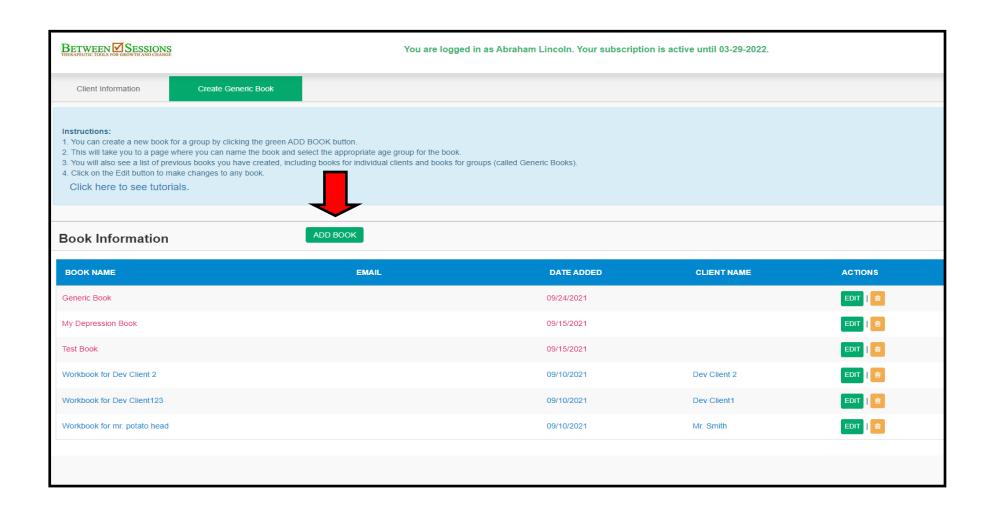

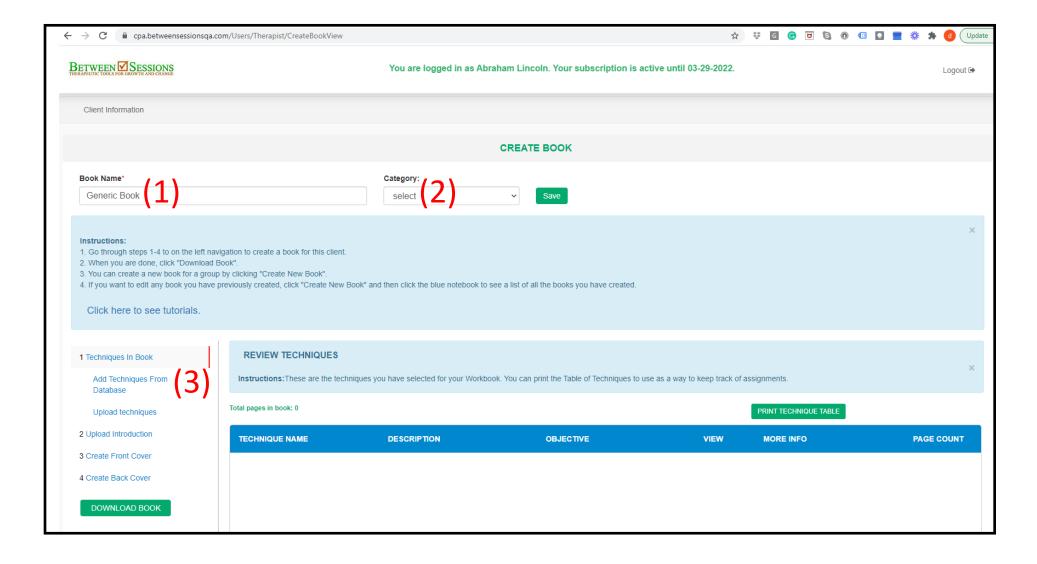

Old Site

New Site

(1)

(2)

An important new feature is you now have the ability to create a generic workbook (rather than a workbook for an individual client). You'll first click the link on your home page, Create Generic Book.

This will take you to a page where you can see all the workbooks you have created, and you can also add your new generic workbook.

When you click Add Book, you'll see a page to name your book (1), select the age category (2), select worksheets from the database (3), create covers, add an intro, and download your workbook.

Please let us know if you have any questions about your account by contacting us at (866) 277-0221 or customerservice@BetweenSessions.com.

Look for the announcement of bi-monthly webinars to help you get the most out of your membership.

And THANK YOU FOR BEING A MEMBER!
